Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 53 is rejected under 35 U.S.C. 102(b) as being anticipated by Miyake et al. Miyake et al. teaches a metallic core and an elastic member covering the core, a stripe-like or wire-like spacer member is spirally wrapped around the elastic member. The wire like member is a spacer because it causes a space to exist between the elastic member and the member to be charged.
